

INTERNATIONAL CONFERENCE ON NONOPERATIVE TREATMENT OF BONES, MUSCLES AND INTERNAL ORGANS

We kindly invite to present works and participate as a listener in International Conference on Nonoperative Treatment of Bones, Muscles and Internal Organs.

The Conference combined with training workshops will take place from 16 to 18 April 2020 in Lublin.

Organizers invite to discuss and present works concerning:

- comparison of surgical and non-surgical treatment,
- preoperative and postoperative care,
- diagnostics and pharmacological or functional treatment,
- legal, psychological and moral aspects connected with a treatment.

Review study, research, review, and clinical case reports can be delivered at the Conference. Scientists will be able to present them in Polish, English, German, French, Ukrainian or Russian.

Abstracts will be published and speakers will have the opportunity to publish full version of the work in a valued publishing house. Authors of the work will be granted numerous prizes including the Grand Prix of the Conference.

Organisers' aim is to create a discussion forum for not only orthopaedists, surgeons, rheumatologists, physiotherapists, pharmacologists, and specialists from other fields, but also for students.

The Conference received Honorary Patronage of the Minister of Health and The Polish Academy of Sciences. The Conference meets the rules of '2.0 Act'. Registration is possible till March 10 th 2020.

Yours sincerely,
Organizing Committee
